

Professional Scholarships: Deadline May 31, 2007

Accomplishments in Cultural Heritage Informatics come from all kinds of organizations throughout the world. Archives & Museum Informatics recognizes that many individuals who make significant contributions to the field would be unable to attend **ICHIM07** without some financial assistance. Scholarships are available to help offset the costs of attending **ICHIM07**. Professionals from the developing world are strongly encouraged to apply.

Scholarship Award

A competitive scholarship, covering the full conference registration, will be awarded to a select number of applicants. In special cases some support may also be offered for travel costs. To be eligible, you must have made a significant contribution to the development of a cultural or heritage technology project, and must demonstrate that you would not be able to attend the meeting without support.

Application Review

The Conference Co-Chairs will review scholarship applications and select recipients. Successful applicants will be those whose involvement in **ICHIM07** is thought to offer the most value to the applicant and to others in attendance. Applications from the developing world will be given preference.

You **must** be recommended by a superior in your institution (preferably your immediate supervisor), who must confirm the details of your contribution to the project referenced.
